THE SCRAMBLE FOR BONDS.

Bids Received for More Than Times the Amount of the Issue.

SUBSCRIPTION LIST CLOSED.

J. P. Morgan Declines to Talk, but Will Issue a Statement Next Saturday.

LONDON DID NOT GET ENOUGH.

The Part of Issue Allotted to Foreign Buyers Far Too Small to Meet the Demand.

Subscriptions for the much-talked-of bond issue, which is to supply the United States Treasury with \$5,000,000 in gold, were opened to-day simultaneously in this city and in London.

In this city the bids for subscribers were received at the banking houses of August Belmont & Co., at 23 Nassau street, and J. P. Morgan & Co., at 23 Wall street.

Obviously the bids were opened at 10 o'clock this morning, but subscriptions were received at both offices long before that hour.

They were closed at 12.32 A. M. promptly, and while it was said that the amount of the bids had exceeded the shares of the bond issue which will be allotted to subscribers on this side of the Atlantic many times over, no official statement was made.

At 10.30 Banker Pierpont Morgan, who acts as the representative of the Rothschild syndicate in this country, was seen at his office.

"I have nothing to say at present," he said, "in regard to the subscriptions to the new bonds, which have just closed, either in regard to the amount of the subscription or the names of the subscribers."

"A statement will be prepared, but it will not be ready for the public until Saturday."

This was all that could be obtained from Mr. Morgan.

At the banking house of Belmont & Co., as inquirers were referred to Mr. Morgan.

The cables from London this morning announced that the bids for the new bonds received there had been largely in excess of the whole issue, although by the arrangement which had been made with the syndicate not more than half of the entire issue of \$5,000,000 can be abroad.

Contrary to general expectation, the scramble for the bonds in this city, so far as general appearances went, was not so lively as had been anticipated.

This was because the syndicate had had come in by mail, and it was said that the rush was practically over last night, when the bids already received by the representatives of the syndicate for ten times the amount of the whole issue.

There were very few subscribers at the offices of either Morgan & Co. or Belmont & Co., and none of these were bidders for large amounts. They were simply a few stragglers who had come in at the last moment to put in their bids for small allotments, and those who were interviewed expressed very little hope that they would be able to secure any of the bonds in view of the tremendous demand for them.

All bids subject to approval.

According to the announcement of Messrs Morgan and Belmont yesterday, on behalf of the syndicate, the right was reserved by them to reject any applications, to allot smaller amounts than had been applied for, and to appoint allotments between American and European applicants in any way that they might deem best.

At least one-half of the bonds will be allotted in London, and the right was reserved by them to reject any applications, to allot smaller amounts than had been applied for, and to appoint allotments between American and European applicants in any way that they might deem best.

The amount of the entire issue of the new four per cent. bonds is \$2,315,000 in coupon form of \$5, \$10, and \$20, and registered form of \$5, \$10, and \$20, and \$50 each.

They bear interest from Feb. 1, 1895, when they are dated, and are payable at the pleasure of the United States after Feb. 1, 1905, or before March 1, 1905, or upon the delivery of the bonds with interest at 4 per cent. a year from March 1.

The bonds will be delivered as soon as they are required and executed by the Treasury Department. It has been arranged that purchasers who desire to complete their purchases before the delivery of the bonds shall receive negotiable receipts.

The talk in Wall street this morning was chiefly in regard to the success of the subscription.

They would be cheap at 115, said a prominent dealer in bonds, "considering the fact that the old government 3 per cent. bonds, which mature in 1907, are selling at 110."

"But it is the syndicate itself which has..." (Continued on Sixth Page.)

Visit of New York Talent Makes the Locals Suspicious.

(Special to The Evening World.)

RACE TRACK, ARLINGTON, Feb. 20.—A large crowd from New York made the journey in this track today. That this mission was not simply for observation was made quite evident during the afternoon by the liberal manner in which they speculated.

Their presence caused quite a stir in the ranks of the local talent who regarded them as an invasion of their domain. Some good things were to be expected.

One result of their visit was the fact that Lilliput, opening at 8 to 5 in the first race, was speedily backed until post time, when it was difficult to secure any better than even money.

The day was an ideal one, all evidences of the recent blizzard having disappeared, with the exception of a little snow in the field. Nine books went on.

There's a Canine Tribby for Society to Worship in the Garden.

(Special to The Evening World.)

THE second day of the Westminster Kennel Club's Bench Show at Madison Square Garden was ushered in with a series of howls and yelps that would have outlived a band of Sioux Indians on the warpath. Long before old Sol had cast his rays upon sleepy Gotham the pets were undergoing their morning toilet in preparation for the big crowd that a few hours later would admiringly patronize them.

This is considered Society Day at the big show. The howlows, however, did not enter into any such arrangement, and the majority of them threw their canine dignity to the winds. They were there to be admired, and scrambled for favor.

Shortly after the show opened a big mastiff resented the intrusion of a new attendant in his stall, and made several vain efforts to chew holes in the latter's coat.

Miss Yenn and Throthe, adjoining neighbors in "Bull Dog Row," got into an altercation a short time after this and mixed things up for a few seconds. They were separated before much damage was done. The two resumed hostilities almost as soon as the attendants left, however, and caused much merriment by their attempts to get at each other.

"Tribby" is the name of a very homely looking old English shepherd dog that took third prize. To a dog fancier of that special breed Tribby might be termed handsome, but it is almost a certainty that Du Maurier did not have her in mind when he designed the heroine of his famous novel. If Tribby, as seen at the Dog Show, hasn't a pretty face and out, however, she has charming manners.

By noon the crowd had grown in proportions and the garden was comfortably filled.

Among those present to-day were: Bert Winslow, Philadelphia; Harry R. Coombs, Reginald Williams, A. L. Bayre, Percy B. Williams, Mrs. Williams, E. P. Dale, Mrs. Dale, D. B. Benson, Washington; T. Proctor, H. B. Clark, T. A. Stevens, H. Stevens, Mr. and Mrs. Crawford, John Moorhead, Pittsburgh; C. T. Sackett, Washington; F. R. Kirby, of Philadelphia; W. W. Silvey, Philadelphia; W. C. Hinson, of Rochester; W. C. Dulles, Philadelphia; Dr. T. Earley and Dr. R. S. Muldener.

The position of a judge at a dog show is not an enviable one. Perhaps there is but one man who is more abused than he, and that is a baseball umpire. So far the judges have given the utmost satisfaction, and in only one or two instances have there been any complaints. The work done by R. P. Mayhew, in
